PROFILE

Full-stack engineer with 3 years of experience in the MERN stack, specializing in building scalable and user-friendly web applications. Recently earned a Software Engineering degree, combining academic knowledge with real-world expertise. Skilled in front-end and back-end development, problem-solving, and delivering high-quality software solutions through collaboration and innovation.

WORK EXPERIENCE

SELF-EMPLOYED 2022 - PRESENT
Full-Stack Developer

- Built websites for local churches, furniture stores, photography studios, and other small businesses.
- Developed projects from scratch using the MERN stack and PHP with MySQL databases.
- Delivered secure, scalable, and flexible solutions tailored to client requirements.

EVERLINK DIGITAL TECHNOLOGIES JUN 2024 - Sep 2024
Full-Stack Developer

- Full-stack developer for a furniture raffle project. Built the backend from scratch, implemented an admin panel, and collaborated with the team on front-end development.
- Backend developer for a workforce-employer connection platform, contributing to core features and collaborating closely with the development team.

OTECH ENGINEERING JUL 2025 - SEP 2025
Full-Stack Developer

- Updated the UI of an existing company website using Django.
- Contributed as a full-stack developer to an ERP system project.
- Collaborated with a dynamic and enthusiastic development team.
- Worked in an Agile environment, participating in Scrum ceremonies and iterative development.

EDUCATION

Bachelor in Software Engineering 2021 - 2025
School of Electrical Engineering and Computing |
Adama Science and Technology University
